

Letter of recommendation

Dear Sir, Madame

My name is Stefan Loder, were responsible as global RPA Senior Manager for Kühne & Nagel from November 2018 until April 2020.

Today I am the production lead for Business Technology Warehouse Automation within Kühne & Nagel.

I have had the pleasure of working with Oscar Jiménez Montero for more as one year.

He was responsible for development and operations of all running RPA bots of AMER within the global RPA team.

Oscar has a broad knowledge on automation technologies and innovations, contributed his ideas.

I was also impressed by his experience in agility, helped the team a lot with Introduction of Scrum.

Accepted in the global team. Friendly and helpful, very committed person.

Always very interested in advancing new automation topic team. Oscar is an asset for any team!

Wish him all the best, success and joy in his new challenge.

Best regards

Stefan Loder

A handwritten signature in black ink that reads "Stefan Loder". The script is cursive and elegant, with the first letters of the first and last names being capitalized and prominent.
